

The Meaty Monster. Taking the audio market by storm.

micro iDSD

World's first true native playback of Octa-Speed DSD512/PCM768
DAC and 4000mW Headphone Amplifier

Small in size. Tremendous in technology.

nano iDSD

World's smallest DAC/headamp. Portable, battery-powered
and true native playback of Quad-Speed DSD256/PCM384

RETRO Series

STEREO 50

Extraordinary "All-in-one" 25W+25W full tube audio system

- Bluetooth(aptX) with NFC support
- 25W+25W pure vacuum tube amplifier
- Burr-Brown Octa-DSD/PCM 768 DAC
- Ultra-wide gain MM/MC Phono pre-amp

LS3.5

Timeless BBC LS3/5A reboot for 21st century using advanced design/materials

- Precision time-aligned tweeter and wideband driver
- Multi-Chamber P.G.A.H Voigt tuned enclose
- Natural bamboo cabinet

mini Series

iDSD mini iTube mini

Coming soon - First quarter of 2015

- mini iDSD: flagship DAC
- mini iTube: flagship tube pre/headamp

micro Series

iDSD micro

World's most advanced Octa-DSD512/PCM768 DAC/Headamp

- 3D Holographic and XBass (ASP, not DSP)
- 4000mW Turbo headphone output
- Direct/Pre-amp modes with analogue volume control

iCAN micro

Class A headamp rated #1 on Head-Fi

- Class A amplification
- 3D Holographic® and XBass® (ASP, not DSP)
- DirectDrive®, directly-coupled for exceptional sonics

iDAC micro

The DAC/headamp that started the iFi audio revolution

- USB-powered HD 24/192kHz DAC
- ESS Sabre 24Bit/192kHz DAC
- Asynchronous USB with zero Jitter lite

Active Monitors

iMon5 iMon7

Scheduled for 2015

- Ground-up drivers with never-before-seen acoustic technology

Accessories

iPurifier

Avant-garde USB audio+power purifier

- Reduces EMI by 5dB
- DSD/PCM/DXD support (with no frequency limit)
- Cleaner USB signal

iGeminis

Advanced dual-headed USB cable (0.7m/1.5m)

- Dual-headed design (0.7m & 1.5m)
- RF3® cuts radio-frequency interference
- Aircraft-grade "Final" aluminium connectors

iUSB micro

Original and the best, noise-free USB power source

- The original quieter than battery, clean USB power supply
- Optional separate audio+power ports
- IsoEarth® to eliminate ground loop/hum

iTube micro

Remarkable GE5670 tube buffer/pre-amp for all systems

- NOS GE5670 tube (premium version of 6922)
- 3D Holographic® for Speakers
- Digital Antidote Plus® removes digital harshness

iPhono micro

Award-winning phono pre-amplifier as used by Analog Planet in US\$250k system

- TubeState® Tri-brid circuitry, near silent noise-floor
- Adjustable MC and MM loads, 40-66dB gain
- 6 Dedicated EQ curves

iMercury

Premium USB cable (0.5m/1.0m)

- Single-head design (0.5m & 1.0m)
- RF3® cuts radio-frequency interference
- Aircraft-grade "Final" aluminium connectors

iPower

Super-silent 9v/1A power supply for all iFi and non-iFi audio products

- Latest design; 10x quieter than original
- Ultra-low noise 8-element output array
- Interchangeable UK/EU/USA plugs

iRack

Modern 4 shelf design for micro/nano components

- Non-magnetic stainless steel pillars with micro-vibration control
- Resonance-damped Organic Glass shelves (up to 4 iFi units)

iLink micro

Cutting-edge USB>SPDIF converter with iFi technology

- Class-leading jitter reduction with JET® circuit
- Super SPDIF® and Normal SPDIF outputs to perfectly match chipset
- Galvanic isolation

iDSD nano

EISA-award winning, the world's smallest portable DSD/PCM DAC/headamp

- True Native Quad DSD256/PCM384/DXD
- Precision analogue volume control
- 10 hours of hi-res audio on-the-go

iCAN nano

Portable/home-based battery-power headamp with iFi technology

- 3D Holographic and XBass (no DSP)
- Adjustable gain for different headphones
- 70 hours of battery-powered playback
