DAC

Pro iDSD HI-SPEED **USB**

PC/Network/WiFi > **Pro iDSD** >
Amplifier or Headphones
Home system

Serious home users.

US\$2,499 / €2,749 / £2,499

- Flagship home DAC
- DSD512, DSD1024 up-sampling
- Quad 'stack' DAC configuration
- 119dB dynamic range
- LINKPLAY™ Hi-Res WiFi/network playback
- User selectable tube/solid-state analogue stage

Analogue sound. Highly versatile.

iDAC2 HI-SPEED **USB**

PC > **iDAC2** > Amplifier or Headphones
Home system

For mainstream users.

US\$379 / €439 / £379

- Home DAC
- DSD256/PCM384 'Bit-Perfect'
- Analogue sound, close to 'vinyl'
- Headphone/RCA outputs

Analogue sound. Even used in €100k systems.

DAC

PC/Phone/DAP > mDSD BL >
Headphones
Home : Portable

Serious users.

US\$599 / €649 / £599

- Home/portable DAC
- DSD512/PCM768 'Bit-Perfect'
- Headphone power of 4,000mW
- Analogue sound, close to 'vinyl'
- MQA

Powerful and natural analogue sound

HOME/PORTABLE DAC

PC/Phone/DAP > nDSD BL >
Headphones
Home : Portable

Serious users.

US\$199 / €229 / £199

- DSD256/DXD384/PCM384kHz
- Headphone power of 285mW
- S-Balanced technology
- MQA

High resolution streaming at an unbeatable price.

DAC

PC/Phone/DAP > nDSD LE
Home : Portable

Beginner home audio with portable option.

US\$139 / €149 / £139

- Home/portable DAC
- DSD128/PCM384 'Bit-Perfect'
- 130mW headphone amp
- RCA outputs
- USB/Battery power

Analogue sound. Entry level pricing.

Smart device/TV/PC > iOne >
Amplifier/Active speakers
Home system

Home use for everyone / Spotify or Tidal users.

US\$199 / €229 / £199

- Home DAC
- BT/USB/SPDIF inputs for 4K TVs and all Smart devices
- Exceptional DAC performance from Burr-Brown chipset
- Galvanic isolation

**Analogue sound. Entry level pricing.
Priced to appeal to mass market.**

DAC

xDSD

PC/Phone/DAP > xDSD >
Headphones

Home : Portable

*Home / portable users who want the
convenience of easy to use Bluetooth,
especially on the go.*

US\$399 / €449 / £399

- Portable DAC/amp with Bluetooth
- Native hi-res audio up to DSD512/PCM768 & MQA ready
- 500mW / 3.8V amp to drive any portable headphone
- S-Balanced 3.5mm TRRS output
- XBass & 3D Holographic settings for enhanced analogue sound

Bluetooth but not as you know it.

DIGITAL

iUSB3.0 ^{SUPER SPEED} USB micro

PC > USB cable > **mUSB3.0** > DAC
Home system

*Computer audio enthusiast with
£5,000+ DAC.*

US\$429 / €499 / £429

- Flagship USB audio/power re-clocking
- USB3.0 technology for best quality
- Two sets of ports for HDD and DAC

Plays in ultra-fidelity US\$10,000+ systems.

iGalvanic3.0 ^{SUPER SPEED} USB

PC > **iGalvanic3.0** > DAC >
Headphones
Home : Portable

Can be used with iDefender3.0 and iPower in various combinations for max impact.

Serious computer audio users.

US\$379 / €439 / £379

- Audiophile grade galvanic isolation on USB3.0
- Avoids noise coupling and breaks ground loops
- Improves sonic performance

The world's first audiophile grade galvanic isolation on USB3.0.

DIGITAL

iPurifier3

Type A

PC > USB cable > **iP3 (Type A)** > mDSD
BL OR USB cable > **iP3 (Type A)** > USB
cable

Home : Portable

*Computer audio enthusiast with BL or
extend USB to +10m ACTIVE cable.*

US\$129 / €149 / £129

- Portable/starter USB audio/power re-clocker
- USB3.0 technology for best quality

**Attractive price, easy to try for BL.
Can actively extend USB cables.**

Type B

PC > USB cable > **iP3 (Type B)** > DAC

Home : Portable

Computer audio enthusiast with <£500 DAC.

US\$129 / €149 / £129

- Portable/Starter USB audio/power re-clocker
- USB3.0 technology for best quality

**Attractive price.
Easy to try for any USB system.**

DIGITAL

~~iDefender3.0~~

PC > **iDefender3.0** > USB cable
Home : Portable

Specialist – for computer audio enthusiast to remove earth / add USB power.

US\$45 / €49 / £45

- Solves ground loops in a noisy audio system
- USB3.0 technology for best quality
- Cuts noise USB power (can inject clean 5v)

Specifically for injecting clean 5v and breaking earth/ground loops.

~~iSilencer3.0~~

PC > **iSilencer3.0** > USB cable
Home : Portable

Generalist - for all computer audio users to lower noise from PC > DAC.

US\$49 / €49 / £49

- Kills USB power noise using Active Noise Cancellation
- USB3.0 technology for best quality
- Reduces jitter/packet errors in USB signal

Attractive price to try! Benefits every USB port.

DIGITAL

iPurifier SPDIF

Apple TV > **SPDIF iPurifier** > DAC
Home system

*Works with any SPDIF source
(eg Apple TV, Google Chromecast).*

US\$149 / €165 / £145

- Ensures Bit-Perfect signal transfer
- Galvanic Isolation
- Solves SPDIF jitter once and for all

Packed with advanced technology. No equal on the market.

ANALOGUE

Pro iCAN

DAC (RCA/3.5mm) > **Pro iCAN** > Headphones

Home system as a Pre-Amp

Headphone enthusiasts/serious pre-amp people.

US\$1,799 / €1,999 / £1,799

- Class A, Tubes/Solid-State selectable
- Output power of 14,000mW!
- Analogue Signal Processing (3D and XBass)

Flagship headphone amplifier and pre-amp.

Pro iESL

Pro iCAN Head-Amp/Integrated > **Pro iESL** > Headphones (electrostatic AND dynamic)

Home system

For Stax etc and flagship headphones, people with Focals and similar.

US\$1,499 / €1,649 / £1,499

- Unique Pinstripe Permalloy Core Transformer
- Unrivalled Bias Voltage circuitry and settings
- Capacitive Battery Power Supply

Flagship energizer. Works with electrostatic AND dynamic headphones.

ANALOGUE

iPhono2

Cartridge (RCAs) > **iPhono2** >
Amplifier
Home system

Serious vinyl customers.

US\$549 / €599 / £549

- Phono Pre-amplifier
- Class A, TubeState circuit
- MM/MC precise adjustments
- Wide Dynamic range

Mid-priced but sound quality of RMB50,000 phono stages.

iTube2

Analogue source (eg Phono) >
iTube2 > Amplifier*
*(all via RCAs)
Home system

Adds 'tube magic' to home systems.

US\$399 / €449 / £399

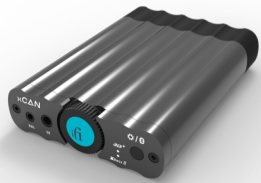

- GE5670 tube, Push-Pull/Single-Ended Triode sonics!
- Analogue Signal Processing: XBass+ and 3D+
- Class A, TubeState circuit

Class A Tube buffer. Little, if any, competition.

ANALOGUE

xCAN

SmartTV/PC/Phone/DAP > **xCAN**
> Headphones

Home : Portable

As above. And those who want to improve the amplification of a DAP or use headphones a Smart TV without the inconvenience of wires.

US\$299 / €349 / £299

- Portable headphone amplifier with Bluetooth with 1000mW per channel
- ESS Sabre DAC with time domain jitter eliminator
- S-Balanced 3.5mm TRRS output
- Balanced 2.5mm headphone output
- 3D+® and XBass II® headphone optimisation circuits

Powerful with the convenience of Bluetooth. Versatile.

iEMatch

Phone/Amplifier > **iEMatch** >
IEMs/Headphones

Portable

All headphone people with IEMs/mid priced headphones.

US\$49 / €56 / £49

- 3.5mm headphone socket
- Improves the sound quality of ALL IEMs/headphones
- Single-Ended or Balanced
- High or ultra sensitivity setting

Elevates high-priced IEMs. No competition.

ANALOGUE

iEMatch™ 

Phone/Amplifier > **iEMatch2.5** >
IEMs/Headphones
Portable

*All headphone people with IEMs/mid
priced headphones.*

US\$59 / €69 / £59

- 2.5mm headphone socket
- Improves the sound quality of ALL IEMs/headphones
- Single-Ended or Balanced
- High or ultra sensitivity setting

Elevates high-priced IEMs. No competition.

POWER

iPower

iPower 5V
iPower 9V
iPower 12V
iPower 15V

*ANY system for quiet DC power supply
(must choose specific voltage).*

US\$49 / €49 / £49

- SMPS silent power technology by AMR/iFi
- Upgrades EVERY power supply
- Only 1uV noise floor!

No-one else makes audiophile DC power supplies.

DC iPurifier2

Fits in-line with existing power supply

*ANY system for quiet DC power supply
(works 5v-24v) .*

US\$99 / €109 / £95

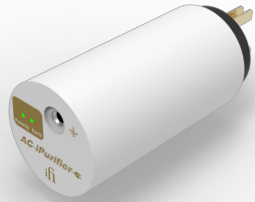

- Works with 5v to 24v!

For all power supplies. No competition.

POWER

AC iPurifier

All systems suffer from mains noise pollution

Add to mains extension to ACTIVELY kill surrounding noise and add earth/ground if needed.

US\$99 / €109 / £99

- Active Noise Cancellation to kill local mains noise across frequency range
- Adds an earth/ground
- Spike protection & polarity detection

Every audio system has noise pollution.

LIFESTYLE

STEREO 50

Home Amplifier / Source Replacement

Audiophile customer (phono/DAC) for high-efficiency speakers.

US\$1,480 / €1,650 / £1,450

- All-in-One (DAC, headphone amplifier, tube amplifier, phono-stage)
- AMR sound quality
- 25W+25W per channel

**Exceptional price/performance ratio.
Everything in one box; just add speakers.**

STEREO 50

LS3.5

Full Home System

Apple (Bluetooth) / Audiophile customer (phono/DAC) .

US\$1,990 / €2,275 / £1,975

- Same as the Stereo 50 but with full range speakers

**Even better value for money with speakers.
No competition.**

LIFESTYLE

Ear Buddy

Phone/Amplifier > **Ear Buddy** >
IEMs/Headphones
Portable

*All headphone people with £100
headphones / IEMs.*

US\$20 / €24 / £20

- Provides ALL IEMs/headphones with better sound quality
- Removes hiss and buzz
- Plug and play for Smartphone upwards

Priced for mass market. Easy to use.

ACCESSORIES

II Gemini 3.0

Separates data channel from USB power to remove noise contamination

From US\$379 / €439 / £379

- Dual-Headed USB3.0 cable
- Superspeed USB3.0 (USB2.0 compatible)
- 3 x RF noise silencers
- FINAL USB3.0 audiophile connector

Future-proofed audio.

Mercury 3.0

Shields data channel from USB power to reduce interference

From US\$209 / €239 / £209

- Quadruple Shielded USB3.0 cable
- Superspeed USB3.0 (USB2.0 compatible)
- 3 x RF noise silencers
- FINAL USB3.0 audiophile connector

Future-proofed audio.

ACCESSORIES

Groundhog

Lots of systems have a missing earth/ground. Just adds 1 Earth!

Add to any system with NO earth/ground to remove hum or buzz.

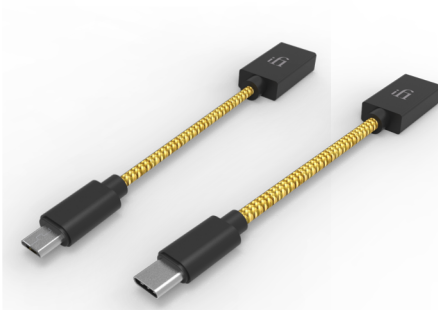

US\$59 / €69 / £59

- Add to IEC, connect at USB/RCA/3.5mm/DC barrel
- Now works with our AC iPurifier

Blue ocean.

Solves a very common audio system issue!

Audiophile OTG

Constructed from pure OFHC continuous cast copper, they conduct clean sound between your Android and DAC

Works with any Android device.

US\$15 / €15 / £15

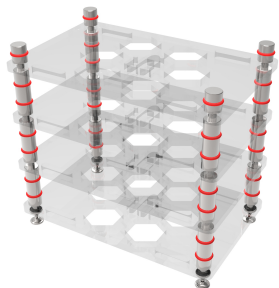

- On the Go (OTG) Cables
- USB C and Micro

iFi build quality in an OTG cable!

ACCESSORIES

iRack

The iRack iRack holds up to 4 units – nano or micro

It comes with:

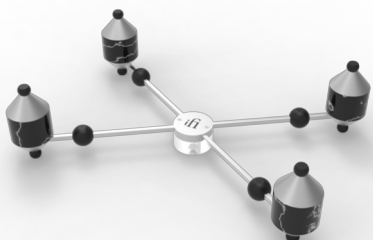

- *RCA cable (45cm) x 1 pair*
- *RCA cable (20cm) x 2 pairs*
- *USB A>B adapter*
- *3.5mm to 3.5mm right angle cable (14cm) x 1*

US\$169 / €199 / £169

- Non-magnetic stainless steel pillars
- Micro vibration control
- Resonance-dampened organic glass shelves
- Natural rubber 'O' rings for sound dampening
- Precision-machined spikes with matching cups

Vibration free audio.

Pro iRack

The Pro iRack grows with the Pro stack

Cuts down vibration and reverb.

US\$269 / €309 / £269

- Made from resonance-dampened magnesium-aluminium alloy
- Micro vibration control
- An invisible sonic signature

Modular.

About us

At iFi (pronounced 'eye-fi') we design and manufacture high-end audio equipment - DACs, headphone amplifiers, phono stages, pre-amps, all-in-ones and a range of signal and power accessories. The company launched at RMAF 2012 with 4 units, won an EISA for Best Product in 2014-15, and now we have over 30 multi-award winning products in our portfolio.

Today, we have a global presence spanning all the major markets. Our retailers range from B&H Photo (NYC) to Virgin Megastore (Dubai) to Yodobashi Camera (Tokyo).
